AERUS

CENTRA LUX®

CENTRAL VACUUM SYSTEM

HOW DOES VACUUMING INCREASE THE VALUE OF YOUR HOME?

The CentraLux, our complete central vacuum system, is a convenient solution to household pollution. Installed in either a basement or garage, the main power unit is linked to inlets in each room. Dirt and debris are carried out of the home to the main unit, unable to reenter your home's air. The canister contains a filter that captures 99.97% of pollutants as small as 0.3 microns, operating at HEPA standards. Cyclonic suction prevents clogs and ensures consistent, powerful airflow for better suction. Plus, installing a CentraLux is considered a permanent improvement that actually adds to the value of your home.

Cleaner Air

A washable filter traps 99.97% of contaminants as small as 0.3 microns, performing at levels equal to HEPA standards.

Ease of Use

Simply insert the flexible, lightweight power hose into any installed inlet and flip the control switch located conveniently on the handle.

Quiet Operation

Noise is virtually eliminated with the main unit hidden in the basement or garage.

Convenience

Inlets are installed in each room, covering up to 7,000 square feet.

No Worries

A 5-year limited warranty protects your investment.

Strong Suction

The powerful motor offers more than twice the suction power of most portable vacuum cleaners.

Easy Installation

The CentraLux can be installed in either existing homes or homes under construction.

Low Maintenance

The brushed aluminum,
6-gallon, rustproof tank is bagless, saving money and increasing airflow. The tank needs only to be emptied twice a year with normal usage.

Performance Indication

An electronic display on the canister keeps you on top of performance particulars, such as when the canister should be emptied or when service is required.

Unique Design

The patented SuperLux Hose swivels 360 degrees for less pressure on the hose and on your wrist and works with both our Supervalve inlets, as well as conventional inlets.

CENTRA LUX®

CENTRAL VACUUM SYSTEM

Complete Assortment of Accessories

The optional CentraLux Deluxe Accessory Kit includes tools for all your cleaning needs.

L-shaped power nozzle – Clean around table and chair legs easily with the unique, L-shaped power nozzle. Its low profile design allows for cleaning under furniture, beds and kitchen counters.

Sidekick® – A mini, motorized power nozzle makes it easy to vacuum mattresses and furniture, as well as hard to reach areas such as stairs.

Combination rug/floor tool – Use the floor brush to clean your hard surfaces, then rotate it over to use the straight suction tool on your fine rugs.

Combination dusting/upholstery tool – The soft, natural bristles are anti-static and protect your furniture, while adjustable wings allow for improved cleaning of upholstery.

Crevice tool – The thin profile is perfect for narrow areas such as between cushions and car interiors.

Deluxe Wands (2) – Interlocking electric wands feature handle controls for fingertip access.

Accessory Caddy – The caddy provides convenient storage for all your accessories and can be mounted to the wall.

Don't Sweep It Under The Rug Anymore!

The VacPan automatic dustpan is the perfect companion for your CentraLux by Aerus. Flush mountable to your wall or cabinet kickboard, the VacPan is the convenient way to clean up dirt and debris when using a broom. Using the VacPan is easy. Simply turn the convenient foot switch to the on position and sweep dirt and debris toward the VacPan. The powerful suction from the CentraLux does the rest. The VacPan is a perfect fit for any room where you sweep such as the kitchen, workshop and garage. Installation is easy using standard fittings and pipe. The VacPan can be installed in new and existing homes featuring the CentraLux.
